

Hello,

This September 30<sup>th</sup> my club, Manatee County Radio Controllers, is hosting an IMAC Boot Camp. The camp begins at 9:00 AM and will end when we are done flying that afternoon. There is no cost, and lunch will be provided for all participants.

The purpose of this event is to generate interest in IMAC. What is IMAC? Scale aerobatic competition. That may seem intimidating, but it's not. You don't need any special plane to begin competing. We're going to be talking about the Basic class of IMAC. It's our entry class, and it's designed not to be overwhelming or expensive. Why should you attend, because nothing will make you a better pilot faster than aerobatic competition. Bring your plane. The only requirement to fly is AMA membership.

If you have questions you can email me at [akbowen61@gmail.com](mailto:akbowen61@gmail.com)

If you plan on attending, please email and let me know so that I'll have the right amount of food for lunch.

Also, information about the event and location can be found on the IMAC web site: <http://www.mini-iac.com/Event-Details/PID/425>

Directions to the field can be found on our club website, just click on the google map link: <http://manateerc.com/>

I am looking forward to seeing you at the event.

Tony Bowen
